<i>Size</i>	<i>Price per print scanned</i>
8x12	\$9.60
11x14	\$15.40
16x20	\$32.00

*Disclaimer: We will not scan or reproduce any professional photos or artwork without permission from the photographer or artist.*

- Scan resolution is normally 100% at 300 dpi, or as large as necessary for prints ordered at time of scanning. If higher resolution scanning is required without ordering enlargements, there will be an additional charge of 25% for 600dpi, and 50% for 1200dpi and higher. (Maximum is 4800 dpi.)
- Artwork that is highly textured, metallic, fluorescent, or extremely glossy can usually be digitized, but will require extra time. In some cases it may be better to photograph the art with a digital camera, which is priced the same as scanning.

<b>Bulk Scanning of Prints – 600 dpi</b>	
<i>*Price includes scanning to disc only. If images need to be rotated, kept in order, color corrected, etc. see next page for additional charge.</i>	
<i># of prints</i>	<i>total price (including CD or DVD)</i>
up to 50	\$39.95 minimum
51 - 100	\$54.95
101 - 200	\$79.95
201 - 400	\$129.95
401 - 700	\$189.95
Over 700	\$189.95 plus .25 per each additional photo

- Size limitations: No smaller than wallet (2.5 x 3.5), no larger than 8.5x11
- Photos cannot be mounted/torn/bent or left in albums/sleeves
- If needed in a specific order, customer must sort accordingly
- Additional charge for cropping \$2.00 per photo.

## Bulk Scanning-Additional Options

- 1. Resolution of scan.** The price listed is for a 600dpi scan. If we scan at a higher resolution (1200 dpi), file sizes become larger and scanning is much slower. If photos are small and a customer wants to use scanned images for editing or printing larger photos, we may need to use a higher resolution. **There will be an additional charge of 50% for 1200dpi.**
- 2. The quality of the scan.** The quality is great for same-size reproduction, or slightly larger, but bulk scanning is inferior to flatbed scanning for significant enlargements and restoration. We view, crop, and enhance the scanned images individually when we do a flatbed scan. We do not crop or enhance scanned images with bulk scan. All borders are included on the scan.
- 3. The size limitation.** The minimum/maximum dimensions for bulk scanning are 2.5” to 8.5”. Anything wider or narrower must be flatbed scanned.
- 4. Mounted photos.** The bulk scan does not work with mounted photos, or anything thicker than a normal photo. These will need to be separated from the rest for flatbed scanning.
- 5. Keeping in order.** If the order of photos is important, sequence number needs to be written on the back of each photo. Otherwise, we cannot guarantee to keep them in order. There will be additional charge of **\$0.10 per image** to keep prints in order.
- 6. Keeping the orientation of photos.** If the photos are not all physically in the correct orientation, we charge **\$0.05 per image** to rotate the digital files to the correct orientation.
- 7. Creating separate folder for each envelope or divider.** We can create separate folders for each envelop or division of photos. We can name each folder according to the description on envelopes or dividers. **The charge is \$1.00 for each folder that we create.**
- 8. Color correction.** If many of the photos are slightly faded or have unnatural color, we can usually improve them. **Color correction is 50 cents per photo.**

# Photo Restoration, Retouching, and Design

- **\$60 per hour** (billed \$5 per 5 minutes of work)
- **\$10 minimum** for any editing other than very basic color correction and brightness/contrast adjustment.

## Estimated Pricing Per Image:

**Minimal Editing (\$10 – 20)** - Removing a few small spots, adding basic text or custom borders, sharpening, other minor work.

**Light Retouching & Design (\$25 – 40)** - Removing small cracks and tears (not including faces), smoothing of skin, improving slightly faded color, correcting improper exposures, adding artistic effects, designing collages, etc.

**Medium Restoration (\$45 – 70)** - Repairing more noticeably cracked or damaged areas, replacing some missing parts, extending or swapping backgrounds, some facial work, more precise color correction.

**Standard / Full Restoration (\$75 – 125)** - Repairing several large heavily damaged or missing areas, correcting significantly faded color, swapping heads and/or clothing, adding/removing people, detailed custom work involving two or more people, full colorizing of black and white images.

**Deluxe / Detailed Restoration (\$130 – 200)** - Worst case scenario, but still restorable. This usually only applies to larger photos with very extreme amounts of fading, cracking, tearing, and/or other damage; detailed work on group photos; precisely colorizing detailed black and white images; other labor-intensive work.

- Pricing does not include cost of prints or scanning.
- We can give a much more accurate price if we see the photo in person.
- All work is digital. We are not able to do any physical restoration or repair.

<b>CDs and DVDs - Not including scanning or other fees.</b>	
CD of scans / digital files	\$6.95
Additional identical copies of CDs	\$4.95
DVD of scans / digital files	\$9.95

## **Giclée / Fine Art Reproductions**

Artwork is scanned to create a high resolution file, which is then color-corrected to match the original. In order to match the color as accurately as possible, we must have the artwork in our store throughout the process. For specific pricing, see flatbed & oversized scanning sections. See watercolor and canvas sections for print pricing.

Basic color correction is included in the price of the print. Our technicians must print multiple test prints in order to match color more precisely. Each test print is compared to the original, and more adjustments are made. For precise color matching, we offer 3 levels:

Level 1: \$5 (3-4 test strips)

Level 2: \$15 (5-7 test strips)

Level 3: \$25 (8+ test strips) – Highest color accuracy possible.

- 1 week is the normal turnaround time for scanning and printing small giclée orders. Large orders may require additional time.

# Package Prints

Package prints are assorted sizes of the same image printed on a sheet of paper. We print package prints on glossy or matte paper from any digital file or negative (120, 35mm, or APS).

You can bring in your image files on a CD or place an online order. Turnaround time is normally about a week but may take longer depending on the size of the order.

*Image handling fee:* \$10 (Applicable if extra files are included or details not clear.)

*Minimum order:* 25 units. Orders of less than 25 units will be priced at the regular enlargement order price.

## Placing Package Print Order:

1. Create a clearly organized list of files.
2. We recommend separate columns for filename, # of units, size of sheet, and a list of sizes included in the package.
3. Specify matte or glossy finish.
4. Send your files via Dropbox, or bring a flash drive or disc to our store.

**Package Units:** (Any combination is available as long as they fit into sheet size.)
